

THE KING'S BOOK OF NUMEROLOGY, VOLUME 9

NUMERIC BIOGRAPHY

PRINCESS DIANA

A U T H O R ' S I N T R O D U C T I O N

The King's Book of Numerology, Volume 9 – Numeric Biography: Princess Diana (KBN9) was first published in 1998 as *Blueprint of a Princess – Diana Frances Spencer, Queen of Hearts*. It has been reprised to be included in *The King's Book of Numerology Series* during 2017 – the twentieth anniversary of her heartbreaking demise on 31 August 1997.

Although a "stand alone" book, KBN9 is an excellent culminating resource for the first eight volumes of the series, illustrating how a numeric biography of any individual can easily be generated. In fact, such a numeric biography should be considered as a mandatory Ph.D. (Doctor of Philosophy) thesis when numerology evolves to the status of a university degree, which it should be. It is the author's viewpoint that the first nine volumes of *The King's Book of Numerology Series* have more than validated the enormous magnitude, veracity and universal impact of numerology as a science and means to advance the consciousness of mankind, as well as laying the groundwork of numerology for its inclusion in the hallowed halls of the educational hierarchy.

The tragic death of Princess Diana of Wales – the most famous, the most photographed, the most written about woman of the modern world and possibly of all time, at that time, was one of the most shocking and saddening events of the late Twentieth Century and certainly of the 1990s. Not since the assassination of American President John Fitzgerald Kennedy in 1963, had such an event captured the attention of the world community.

On that ill-fated Sunday of 31 August 1997, and the following week until her funeral, there was much talk, discussion, reflection and eulogizing of this Princess of Love, the People's Princess, the Queen of Hearts. But in all of the major media news coverage there was no discussion given to the underlying numerical aspects of her life and death, a treasure trove of knowledge explaining why her life was the way it was. Nothing, nothing is happenstance in this world. There is order to everything if one is willing to seek the truth of life.

This book is dedicated to addressing those issues of Princess Diana's life through the ancient science and art of numerology, specifically The King's Numerology™. Its purpose and hope is to offer some consolation and explanation as to that one question so poignantly written on a card of condolence left with the multitude of flowers before the gates of Buckingham Palace. . . "Why?"

Says Hunter Stowers . . .

This book is a Godsend of practical, hands-on numerological analysis that defines and reveals psychological truths within Diana and Charles and their relationship that give reason, in a way that nothing else can, for the events that happened as they did. Whether one is a beginning student of numbers or a professional numerologist, there is a fountain here in this book to drink deeply from – time and time again. After learning from King's numerological teaching, it is impossible to conceive of going back to that 'twilight naive and foggy' state of being where one can only guess or hint at the truths, motivations and directions of one's life that are Pre-King.
