Richard Andrew King is the archeologist of numerologists.

Richard Andrew King breaks new ground! It's almost as if the very Spirit of Numerology is using King as an instrument to evolve this ancient science to a new level. After learning from King's teaching, it is impossible to conceive of going back to that 'twilight naive and foggy' state of being where one can only guess or hint at the truths, motivations and directions of one's life that are Pre-King.

of Law and Metaphysics

Richard Andrew King should be called Dr. King. His books are of the magnitude that will be read with reverence for generations to come.

Mr. King provided the most in-depth numerology reading I have ever received. His reading helped me to understand my entire life. I now understand my script, my path, and why some of the events of my life happened. It helped to take away the grief, the guilt and the pain. I could tell as soon as the reading began that Richard Andrew King was far more skilled and in depth than any reading I had ever received. Beginning numerology does not handle it. It takes a completely educated person to totally bring the subject all together.

Richard, I just finished reading your first two books: "The King's Book of Numerology, Volumes 1 and 2." Your overall approach makes more sense to me than any other author on the subject. In my quest to not just learn but to truly understand and apply Numerology, I've read Matthew Goodwin, Matthew Oliver, Hanz Decoz, Juno Jorden, Joanne Justice, Chero, Lloyd Stayhorn, Lynn Buess, Heather Lagen, Julian Moore, and others. I am grateful to each of these authors as I did learn much from them. Yet, to me there seemed to be a missing synthesis as each author emphasized elements of divination somewhat differently, and at times, contradictory.

Richard, your approach is comprehensive and layered, seemingly leaving no numerical-stone unturned. The beginner will appreciate your initial simplicity and unique narrative that clearly connect this subject to its underlying spiritual-context in which all Numerology is based. Afterwards, the way you move into a multi-layered synthesis, more representative of the human condition than any approach I've experienced, is extraordinary.

Simply, this work is Immensely useful and actionable! After all, the motivation as to why we engage in Numerology is far more universal than to simply access insights into "who we are," "what makes us and others tick" — it is to live the best life possible!

I will say without hesitation that The King's Numerology[™] is true and real. Richard Andrew King's knowledge of numbers changes intangible spirituality and divination into solid, practical, objective reality. In a word, Richard Andrew King brings science to the art and practice of divination and spirituality. He brings proof to the otherwise unprovable; solid evidence to the not-so-solid-universe of the divine. The King's Book of Numerology Series contains new information that informs and predicts more completely and accurately than any previously published numerological work. I personally feel Richard Andrew King is bringing back the empowered sciences of long ago, information long since lost upon this plane. I would recommend The King's Book of Numerology Series to everyone practicing or wanting to practice divination. All who read King's works will benefit and be blessed. Richard Andrew King is the best!

Other numerologists may refer to themselves as master numerologists, but Richard Andrew King is the King of numerologists.

The most comprehensive Numerology Chart Reading on the Internet!

Richard Andrew King's Numerology is, by far, head and shoulders above all the rest. I recently had a life reading with Richard. It was empowering. After having several numerology readings in the past, I was amazed at all the information I had been missing that Richard taught me. Numbers are the key to the universe which coincides with Astrology. It's all God's language, and it was amazing to me the depth of knowledge Richard offers in his readings with respect to how numbers impact every aspect of our lives. I came away with a better sense of my destiny, who I am and what my journey is about. Thank you, Richard, for your generosity of spirit.

Mr. King, I wanted to tell you that your Numerology newsletter, Number News, has been an inspiration to me. Thank you for sharing your knowledge and your time; it has been extremely valuable for me. Without the benefit of your books, articles, and Numerology Number News, I most certainly could not have begun to understand a variety of issues. I have not dealt with anyone who can explain the complexity of Numerology to beginners such as myself as clearly as you have done. For that I am very grateful. Thank you.

Richard, thank you for your wonderful lecture and easy to follow method of understanding numerology. This is the first time I have ever looked into numerology and you came across very logical and scientific versus what I have always thought it would be...a dark room full of candles, tarot cards and a lot of mystical stuff I don't understand. Instead, I left with clarity and an inner knowing about myself that was confirmed. Blessings to you for passing on valuable knowledge.
