## 2010 Preview

God created everything by number, weight and measure.  
~ Sir Isaac Newton

2010 contains several unique components.

1. It is the first year following the *alpha-numeric spectrum* of the 2nd Millennium.
2. It is the gestation of the 2nd Millennium's "Teen Era."
3. It is intrinsically a part of the Core Millennia Shift.
4. It is the first year of the 2nd Millennium containing a dual Subcap Challenge of 1 & 8.

What is the significance of these components? The *alpha-numeric spectrum* represents the simple single numbers 1 through 9. There is much power in these energies because they are "new born" and "raw," the first primal numbers of the 2nd Millennium. Their individual attributes and characteristics are sequentially initiated from the year 2001 through 2009. The year 2000 with its three zero ciphers was the gestation period of the entire 2nd Millennium - the "incubation process" of the following one thousand year period. Upon being born, the new millennium baby began her developmental process. The year 2010 moves the new millennium child basically out of her *alpha growth stage* [single numbers 1 through 9] into the field of the "Teen Years," those years whose two digit binary numbers are preceded by the number 1. These are indicated as 10-11-12-13-14-15-16-17-18 and 19. This is a challenging time because every year is marked first by the emerging self and ego [the 1] as it confronts a new number and its characteristics every year for nine years. At age 11, the self, the 1, is confronted with other egos, other selves, other 1s. At age 12, the self is confronted with the concept of relationship, the 2. Age 13 begins the puberty phase of life, the 3, as it becomes structurally transformed through the 4 of structure - physical, emotional, psychological, spiritual [ $1 + 3 = 4$ ]. Age 13 is the initiatory period of the emerging child into its adult maturation. And so it goes. It is the year 2010 which is the beginning of this entire post *alpha stage* developmental process. There will be many growing pains and "teenage" issues.

2010 is still in the middle of the Millennia Shift - the transition period between the last thousand years marked by the number 1 and the current thousand years marked by the number 2. This enormous shift began on 31 December 1957 and will not conclude until 31 December 2031, leaving a full twenty-two years remaining in this unprecedented change-over, an extremely difficult and challenging period because the numbers 1 and 2 are diametrically opposed, total opposites. The great cosmic pendulum had occupied the energy field of the Yang [the male] for a full thousand years but has now, by cosmic law, naturally swung back toward the Yin [the female]. Those of us alive during this time are caught smack dab in the middle of this somewhat maddening but magical millennium metamorphosis. [For more on the Millennia Shift and the 2nd Millennium, read: [\*The Age of the Female: A Thousand Years of Yin\*](#)].

The fourth unique factor about the year "two thousand ten" [2,010] is that one of its Challenges is the number 8. This is called the *Subcap Crown* [or simply *subcap*] and is derived by subtracting the 2 from the 10. The Subcap Challenge represents the challenges, difficulties, crosses and burdens contained with any multi-digit number except *master numbers* [double digit numbers of the same cipher such as 11, 22, 33, etc. which have no subcap, only a zero cipher]. 2010 is the first year of this new thousand year period in which the 8 appears in a Challenge position. See the following diagram.

Having 8 in a Challenge position, especially for the first time beginning a thousand year period, is a powerful aspect. 8 rules commerce, social interaction, connection and disconnection [two sides of the same coin]; management, administration, orchestration, marketing, integrated harmonious flow, and anyone who has a dominate 8 in their name or Basic Matrix. When the 8 is challenged in a chart, as it is in the year 2010, there will be obstacles involved in the attributes and categories listed above. In other words, 2010 potentially houses social and commercial disruptions, problems, disconnections, as well as financial hurdles and obstacles. The entire 1900s housed an 8 Subcap Challenge for one hundred years which accounted for the great social upheaval during that era [9 minus 1 = 8].

Another aspect of any Challenge is that when its number is voided in a chart, any problems associated with it are exacerbated. A void is when none of its associated letters appear in a name. For example, the number 8 is represented by the letters H-Q-Z. If a person has no Hs-Qs or Zs in their birth name, the person is said to have an 8 void or a voided 8, which is written in a chart as 8v. If the 8 void appears in a Challenge position in a numerology chart, it is referred to as a *Voided Challenge*. This creates the potential of greater difficulties in the life. [for more on addcaps, subcaps, voids and challenges, read [\*The King's Book of Numerology II: Forecasting - Part I.\*](#)]

The 8 subcap challenge is not the only subcap for the year 2010. If rather than referring to 2010 as "Two Thousand Ten," it is referred to as "Twenty Ten," a secondary 1 Challenge appears [20 minus 10 = 10 > 1 minus 0 = 1]. Therefore, the year 2010 has a double Subcap Challenge - 1 and 8.

The 1 subcap references Yang energy - that which deals with independence, action, leadership, creation, individuality, self-confidence, will, strength, authority figures, males in general and anyone with

a 1 in their Basic Matrix [for more on the Basic Matrix, read [\*The King's Book of Numerology, Volume I: Foundations and Fundamentals.\*](#)]

All of us on planet earth will have to contend with this 1-8 double challenge during the year 2010. There's no escaping it. For people with a 1 void [corresponding letters are A-J-S] and/or an 8 void [corresponding letters are H-Q-Z], their lives will be particularly challenged in those areas represented by the 1 and the 8. Therefore, 2010 carries a double whammy involving challenges associated with new directions and beginnings, leadership and authority issues combined with social obstacles, commercial, business and financial stresses, administrative concerns and upheavals. 2010 will be a bumpy year, disconnective in many ways, especially for entities with a voided 1 and/or 8. For these souls, there will be issues with independence and things coming apart and disconnecting. The "flow" of business and commerce will neither be smooth or fluid. Yet, there will be new developments and new direction which will challenge us all. What that direction will be remains to be seen, but part of the drama will involve ease of living, happiness, well-being, health, communication because of the 3 Addcap.

The *Addcap Crown* or simply *addcap* is the 3. It is also referred to as the Pinnacle of a multi-digitated number. In the case of 2010, it is derived by adding the 2 to the 10 to first generate the number 12, a *transition root*, which further reduces to a 3 through the process of addition. The 3 references issues of self-expression, image, vanity, art, communication, children, joy, friends, beauty, health, well-being, disease, dis-ease, happiness/unhappiness, fortune/misfortune, anger, hostility - all of which represent both sides of the 3 energetic coin. If 3 is voided in a chart, potential issues involving health, communication, children, words, bitterness, misfortune and anger will need to be addressed, especially if the 3 is in a Challenge position, thus becoming a Voided Challenge.

The *Addcap Crown*, regardless of its number, does not carry with it the same problematic potentials that a *Subcap Crown* does. Yet, it is still active and will force itself to be addressed, whether in a positive or negative fashion. Regarding Addcaps and Subcaps, it can be generally said that Addcaps are those conditions and circumstances appearing above the surface of the ocean that is our lives, and Subcaps are those challenges hidden beneath the surface that have to be dealt with on a personal and private basis.

In assessing any calendar year's affect on each of our lives, it must be remembered that every year actually extends for twenty-four months, not twelve months. Why is this? Because our personal years begin on our birthday and continue to our next birthday. A person born on 1 January 2009, for example, will have his personal year coincide perfectly with the calendar year and end on 31 December 2009, a day before his birthday in 2010. However, a person born on 31 December will not begin his 2009 until that date and continue to 31 December 2010. It's all about personal cycles, and our annual life cycle is marked by the day we're born, not by the universal calendar date.

greatest simplicity. He is the God of order and not of confusion.

## **How Will 2010 Affect You?**

How will 2010 affect you personally? There are many timelines affecting our life during any given year. Our lives can be defined as *interwoven tapestries of cosmic vibration*. In other words, they're like variegated multi-colored carpets with varying thicknesses of threads. This structure creates complexity, and all of us are very complex. No one thread defines our life at any given time. The art of numerology is learning to "read" these threads and evaluate how they interact with each other.

One major annual timeline thread is the UTL or Universal Timeline representing the calendar year. This and other timelines are fully discussed in [The King's Book of Numerology II: Forecasting - Part I](#). The UTL gives us a general picture of the *influences* and *outcomes* we can expect during its reign. How is it calculated? Let's see.

## Calculating the UTL [Universal Timeline]

### Step 1: Computing the UTL.

The first thing we need to know to compute the UTL is the calendar year. Its energies represent the *Influences*, *Issues* and *Themes* of the year in question. Obviously, 2010 is the upcoming calendar or universal year. Its portrait is above. 2010 maintains a 3 Pinnacle [addcap] and dual Challenges of 1 & 8 [subcaps], as we've discussed. These numbers have specific characteristics, as all numbers do, which are noted as *Keywords*. For a *Keyword Chart*, go here: <http://www.richardking.net/numart-keywords.htm>. Read about the numbers 1, 2, 3 and 8. These are the dominant Influencing energies for 2010.

### Step 2: Calculating the Expression.

In order to gain a full understanding of how 2010 will affect you personally, you will need to know your personal name number. This is called your *Expression* and is computed from your *full and exact birth name*. Using the following Basic Letter Value Chart, write down the numerical value of each letter in your birth name, add left to right and reduce to a single digit. This chart can also be found on the web at: <http://www.richardking.net/numart-tls.htm>

### Basic Letter Value Chart

Basic Letter Value Chart									
[Each single number grouping is called a Genera]									
Letters	A	B	C	D	E	F	G	H	I
	J	K	L	M	N	O	P	Q	R
	S	T	U	V	W	X	Y	Z	
Basic Value	1	2	3	4	5	6	7	8	9

Here's an example using the name "John Doe" whose Expression is an 8.

### Expression Calculation for John Doe

Letters	J	O	H	N	D	O	E				
Number Value	1	6	8	5	4	6	5	=	35	3+5	= 8
John Doe's Expression is an 8											

### Step 3: Calculating the UTL-PE [Performance/Experience, i.e., the Reality or Role for the year].

The PE represents the *Outcome* or *Performance/Experience* [also referred to as the *Reality*] we will experience as a result of the year's *Influencing* energies filtering through or mixing with our name, i.e., our Expression. Having calculated the Expression number, we simply add it to the year's *Addcap* and *Subcaps*. For example, the Addcap for 2010 is a 3. If your Expression is a 7, add 3 + 7 to get 1 [3 + 7 = 10]

> 1 + 0 = 1]. Therefore, 2010's *Influencing* 3 energy of self-expression, image, vanity, art, communication, children, joy, friends, beauty, health, well-being, disease, dis-ease, and so forth will create an *Outcome* field of the 1. This means the 3 energy will play itself out in the arenas of your personality, ego, self, image, confidence, independence, primal strength and basic will. The 1 also represents male energy, action, initiation, bosses, leaders and authority figures. If you also have a 1 Lifepath, the 3 will strongly influence it because that's the field in which the 3 is manifesting. This *Influencing* energy of the 3, moving through the filter of your 7 Expression, produces an *Outcome* energy of the 1. This combination is visually depicted in what is called an "I/R Set" where the "I" stands for *influencing energy* and the "R" stands for *reality* or *outcome*. In effect, it is the Performance/Experience or PE cipher.

**The 3/1 IR Set**

[Filter is the 7]

<b>Influence</b>	<b>3</b>
<b>Outcome</b>	<b>1</b>

We follow the same process to determine how the year's Subcap Challenges of 1 and 8, acting as *influencing energies*, will manifest in our life. We'll use the same example of a 7 Expression as above and add it to both the 1 and 8, the subcaps for 2010. Notice the 8/6 IR set below? How did the 6 appear in the *reality* [*outcome*] field? By addition: 8 Subcap + 7 Expression > 15 > 1 + 5 = 6 PE.

**The 1/8 & 8/6 IR Sets**

[Filter is the 7]

<b>Influence</b>	<b>1</b>		<b>8</b>
<b>Outcome</b>	<b>8</b>		<b>6</b>

Every individual with a 7 Expression will be dealing with two sets of Challenges for 2010 as they relate to the UTL [Universal Timeline, the calendar year]. The first is the 1/8 IR set which indicates energies of the 1, the self, the yang, independence, action and new beginnings [the *influencing* energy] playing itself out in the arena of the 8 - business, commerce, social interaction, management, orchestration, connection, disconnection and general flow. In other words, the individual may be challenged in starting a new business venture or in keeping his financial world in tact.

The 8/6 IR set indicates influences and issues of commerce, interaction, social integration and so forth, playing themselves out in the area of the 6 - the home, heart, hearth, domicile, community, nurturing, etc. Again, to read these IR sets, simply associate the keywords with each number, remembering that the first or top number represents the *influences* and the second or bottom number represents the *reality* or *outcome*. Remember, too, that this UTL is only one of three recurring annual timelines. 4 Expression: *Outcome* [PE] is 3: self-expression, words, communication, children, well-being, beauty

5 Expression: *Outcome* [PE] is 4: work, service, order, material body, discipline, constancy, devotion

6 Expression: *Outcome* [PE] is 5: change, detachment, shifting, versatility, experience, senses, freedom

8 Expression: *Outcome* [PE] is 7: internalization, privacy, withdrawal, study, teaching, introspection

9 Expression: *Outcome* [PE] is 8: commercial enterprise, social integration, management, flow

These interpretations are very brief and are not intended to give either a full nor accurate picture of someone's life during 2010. They comprise only one aspect of a year's analysis. Other factors and numbers in each person's chart will come into play. A numerology chart is very extensive and addresses many more factors. Yet, the above information does serve as a simple guide as to what an individual can potentially expect in relation to the UTL [Universal Timeline] of the calendar year 2010.

from the dominion of an intelligent and powerful Being,

### **Final Note**

Numerology is a wonderful tool for understanding our lives and those of others, especially the ones we love. Yet, we must not become so enamored with it that we lose sight of our inherent divinity and the goal of elevating our consciousness beyond the realm of numbers and into those dimensions devoid of the constraints and limitations of this plane of existence. This may seem somewhat esoteric, but nonetheless,

it is true. We are spiritual beings living a human experience, not human beings living a spiritual experience. The ultimate goal of life is to liberate ourselves from this extremely purlieus plane of existence. Never must we forget that this world is a foreign land to the soul. It is not our Home. As Saint Charan Singh, a Perfect Master of the 20th Century, eloquently and succinctly stated: *Just live in the creation and get out of it!* For more on the teachings of Saints and Perfect Masters, read: [\*Messages from the Masters: Timeless Truths for Spiritual Seekers.\*](#)
